FROM STANDART PRINT Ltd, Sofia

FOR MONOLIT 3 Ltd.

(beginning of the site STANDART PRINT - February 1994, continued in 1995)

The company MONOLIT 3 Ltd, Sofia , 52 Georgi Sofiiski Str., is General executor of the construction site PRINTING HOUSE of the newspaper Standart.

The construction site is a combination of different construction works by their character:

- repairs and reconstruction of already existing office buildings, building of a new administrative building, making a precise machine foundations, electroassembly works (including firealarm systems, automation, phone installation etc.), different pipe installations, building and furnishing of pumping station with underground feed tank, building site vertical levelling, etc.

As of today, building of construction works of the site is nearly finished. All works, executed by MONOLIT 3 Ltd. are of high quality and accepted by the Designer and Investors Control without any objections.

All works are carried out by MONOLIT 3 Ltd. teams and with their own equipment, without hiring of subcontractors.

MONOLIT 3 Ltd. has at its disposal fully equipped mechanical park (back shovel excavators, bulldozers, tipping lorries, concrete-delivery trucks, road roller, autocranes, transport equipment, etc.) as well as varied small construction mechanization. All this contributes for the successful execution of the works.
