After holding the tender for contracts for construction and fitting works at the construction site "Schneider-Electrik plant" in the town of Perushtitza the company "Monolit 3" OOD with headquarters in the city of Sofia, 52, Georgi Sofyisky street, second floor has been appointed to be General Designer and General Contractor.

All the works, concerning the design and construction have been completed duly and according to the contract.

The construction site comprises different types of works.

1. Repair and reconstruction of the existing buildings.
2. Building of new industrial and administrative premises.
3. Setting up of machine foundations.
4. Construction electrician works including fire alarming system, telephone communication system etc.
5. Setting up of pipelines and installations.
6. Construction of underground reservoir.
7. Vertical levelling.

The construction and fitting works have been performed with high quality. The well equipped fleet (excavators, bulldozers, tipping lorries, concrete-delivery trucks, rollers, cranes, transport vehicles etc.), as well as the various small

construction mechanisation of the company "Monolit 3" OOD contributes to the successful completion of construction and fitting works.

The company "Monolit 3" OOD is employing highly qualified specialists and teams for performance of engineering works.

I highly recommend the company "Monolit 3" OOD as a good business partner of any investor.
